

CARLOS ROMAN-CONVILLE

Systems Administrator | Technical Operations | Network & Hardware Support

cromanconville@gmail.com | 856-397-9706 | Philadelphia, PA

SUMMARY

U.S. Army Reserve combat medic and Systems Administrator with hands-on experience troubleshooting hardware, operating systems, and networks for high-traffic end-user customer service environments. Disciplined, SOP-driven, eight-year HAZMAT-designated unit veteran trained for high-pressure incident response. Combines server administration, problem-solving, and verbal communication to deliver fast resolution and technical documentation.

WORK EXPERIENCE

Systems Administrator, BEAT THE BOMB Sep 2024 – Mar 2026

- Administered Linux Photon servers, NUC kiosks, networked infrastructure (CCTV, RFID, DMX, Dante audio, OBS), and iOS/Android end-user mobile support in a high-traffic facility — owning hardware, operating systems, network, and customer service.
- Resolved live incidents across hardware, operating systems, and network layers under time pressure — TCP/IP and DNS troubleshooting, Linux/Windows server debugging, problem-solving with .env/JSON config management, RustDesk remote admin, and hardware replacement (servers, cameras, displays).
- Managed help desk ticket system requests with clear verbal communication; authored SOPs and runbooks codifying fix paths for recurring incidents, enabling junior staff to resolve issues without escalation.
- Coordinated internal automation pipeline development and optimized guest transition protocols, reducing average wait times 75% (10 → 2.5 min) and increasing throughput.

Operations Manager, 1-800-GOT-JUNK Mar 2019 – Jun 2021

- Managed customer service, vendor logistics, and dispatch operations, optimizing routing, scheduling, and service completion.
- Reduced lost-job rates ~15% by improving pricing negotiations and route coordination, increasing job acceptance and completion rates.

68W Combat Medic, U.S. Army Reserve – 338th Medical Brigade Oct 2011 – Jul 2020

- Developed and delivered training curriculum for 8-person medic team, enhancing medical response capabilities and procedural compliance.
- Completed timed medical assessments in ~35% of allotted time while maintaining accuracy and performance standards in high-pressure environments.

EDUCATION

Bachelor of Arts in Political Science

Rowan University

- Political Science
- Final CGPA: 3.80

TECH STACK

- **Systems:** Windows Kiosks, NUCs, RFID, iOS/Android, AV Systems
- **Software:** SQL, OBS, Elgato, Salesforce, SAP
- **Collaboration:** Microsoft 365, Slack, Notion, Google Workspace
- **Infrastructure:** Networking, CCTV, Multimedia Systems

KEY SKILLS

- System Troubleshooting & Root-Cause
- Network Debugging (IP/DNS/Ethernet)
- Hardware Triage, Repair & Calibration
- Remote Systems Admin (RustDesk)
- SOP & Technical Documentation
- Customer Service & End-User Support
- Verbal Communication & Problem-Solving
- Vendor Logistics
