SUMMARY

Operations Manager with experience optimizing workflows, maintaining system uptime, and leading cross-functional teams in high-pressure environments. Combines hands-on technical troubleshooting with operational leadership to improve efficiency, reduce downtime, and streamline processes. Background includes logistics coordination, facility operations, and data-driven problem solving with exposure to automation tools (Python, SQL, APIs).

CORE SKILLS

Operations Management • Process Improvement • Workflow Optimization • Logistics Coordination
Automation & Process Automation • Data Analysis • Technical Operations
Inventory Management • Vendor Management • Project Coordination
Troubleshooting • Systems Optimization • Team Leadership

EXPERIENCE

Operations Manager

BEAT THE BOMB – Philadelphia, PA | Sep 2024 – Mar 2026

- Served as primary on-site lead for technical and operational issues, ensuring minimal disruption to daily operations
 - Diagnosed and resolved real-time system, electrical, and equipment failures to maintain continuous uptime
 - Improved workflow efficiency by identifying operational bottlenecks and implementing process improvements
 - Managed inventory, equipment readiness, and vendor coordination to support consistent operational performance
 - Implemented structured troubleshooting and maintenance processes to improve team efficiency and response time
 - Maintained operational continuity in a high-volume, fast-paced environment by minimizing downtime and system failures
-

Operations Manager

1-800-GOT-JUNK – NJ/DE Region | Mar 2019 – Jun 2021

- Coordinated daily logistics and dispatch operations, optimizing routing and scheduling for efficient job completion
 - Managed customer communication and scheduling through Salesforce, ensuring accurate job tracking and service delivery
 - Resolved customer disputes and pricing negotiations in real time to secure completed jobs and protect revenue
 - Optimized routing between job sites and disposal locations to reduce delays and improve efficiency
 - Acted as central point of coordination between drivers, customers, and management for smooth operations
 - Managed high-volume daily operations supporting multiple active routes and service calls
-

U.S. Army Reserve – CBRN Defense Unit

Operations / Logistics Support | Oct 2011 – Jul 2020

- Supported large-scale disaster response planning and multi-agency coordination in high-pressure environments
 - Assisted in logistics planning including triage site setup, evacuation routes, and resource deployment strategies
 - Coordinated communication between military command and civilian agencies (hospitals, EMS, logistics teams)
 - Maintained operational readiness of vehicles and equipment for rapid deployment scenarios
 - Participated in live training exercises and after-action reviews to improve operational effectiveness
-

TECHNICAL SKILLS

Python (Basic) • SQL (Basic) • APIs • Excel • Data Tracking & Reporting
Workflow Automation (Foundational) • Systems Troubleshooting

EDUCATION

Rowan University – Glassboro, NJ
Bachelor of Arts, Political Science • GPA: 3.8
