

CARLOS ROMAN-CONVILLE

Operations Manager | Technical Operations | Process Improvement

cromanconville@gmail.com | 8563979706 | Philadelphia PA

SUMMARY

Operations Manager focused on optimizing performance in high volume environments through process improvement and systems thinking. Leverages technical knowledge to enhance operations, streamline workflows, and build scalable, efficient processes. Proven ability to reduce downtime, resolve issues quickly, and drive consistent results in fast-paced environments.

WORK EXPERIENCE

Technical Operations Manager, BEAT THE BOMB

Sep 2024 – Mar 2026

- Led on-site resolution of technical and operational issues, maintaining system uptime and minimizing disruptions in a high-volume environment.
- Identified workflow bottlenecks and implemented process improvements to increase system efficiency.
- Led development of an automation pipeline to replace manual processes, collaborating with cross-functional contributors and improving operational efficiency.
- Optimized guest transition protocols, reducing average wait times by 75% (10 min to 2.5 min) and increasing throughput.

Operations Manager, 1-800-GOT-JUNK

Mar 2019 – Jun 2021

- Coordinated daily logistics and dispatch operations, optimizing routing and scheduling for efficient job completion.
- Resolved customer disputes and pricing negotiations to secure revenue and maintain service completion.
- Reduced lost-job rates by ~15% by improving pricing negotiations and route coordination, increasing job acceptance and overall completion rates.

Oct 2011 – Jul 2020

68W Combat Medic U.S. Army Reserve – 338th Medical Brigade

- Supported large-scale disaster response planning and multi-agency coordination in high-pressure environments.
- Developed and delivered training curriculum for 8-person medic team, enhancing medical response capabilities and procedural compliance.
- Completed timed medical assessments in ~35% of the allotted time while maintaining accuracy and performance standards in high-pressure training environments.

EDUCATION

Bachelor of Arts in Political Science

Rowan University

- Political Science
- Final CGPA: 3.80

Strategic Simulation Project: Improved team performance to 2nd out of 8 by optimizing logistics and coordination.

KEY SKILLS

- Operations Management
- Process Improvement
- Workflow Optimization
- Logistics Coordination
- Inventory & Vendor Management
- Data Analysis
- Python scripting,
- Process mapping tools
- Technical Troubleshooting
